About Moot Court Competition-2024

Scan or Click for Moot Problem

A moot court competition simulates a court hearing (usually an appeal against a final decision), in which participants analyze a problem, research the relevant law, prepare written submissions, and present oral arguments. Moot problems are typically set in areas of law that are unsettled or that have been subject to recent developments. They usually involve two grounds of appeal, argued by each side. The procedure imitates what is followed in real courts: the judge enters, the mooters and the judge bow to each other, the clerk announces the matter, the mooters give their appearances and are then called on in turn to present their submissions, the judge asks questions to the mooters, the court adjourns, and the judge then returns to deliver a brief judgment and some feedback to the mooters. Mooting is not the same as public speaking or debating, although it shares some common elements with these activities. It is a specialized application of the art of persuasive advocacy. It has been part of the process of training lawyers for centuries and plays an important role in legal education.

In this Moot Court Competition-2024, various teams of mooters will participate in undergraduate programs of Law and Forensic Science. Each team shall comprise of 2-5 students as mooters and Researchers.
